DAIL EIREANN ACCEPTS TREATY BY 64 TO 57

MUCH NEW WORK IS BEING UNDERTAKEN AT TONOPAH BELMONT

The weekly report of operations at the properties of the Tonopah Belmont Development company indicate that much new work is being started for prospecting purposes on the different levels of this big Tonopah producer. On the 1100 level particularly, a campaign of development is being carried out that bids fair to uncover numerous orebodies that so far have not been touched in many locations in the mine.

Conditions at both mine and mill are excellent, as was indicated by the large bullion shipment that was made this morning. It consisted of 50 bars weighing 95,100 ounces, with a value of \$108,820, and represents the clean-up for the last 15 days of December.

An indication of the condition at the big property may perhaps be gauged by the fact that during the month ending December 15 the production had a value of only \$2000 less than the greatest month in the mine's history, the former figure having been accomplished many years ago when the orebodies were of much higher grade than now.

The official report of company operations for the seven-day period ending January 7, as given out by the management, follows:

700 Level—Northwest crosscut 702, off east drift from raise 5, prospecting in Mizpah trachyte.

800 Level—Northwest crosscut 8046 off west drift 862, prospecting in Mizpah trachyte. North crosscut 8059 off west drift 8043, prospecting in West End rhyolite. West crosscut 8054, off west drift 827, for mining purposes. Raise 64, off southwest crosscut 8048, holed to stope 855, its objective.

900 Level—Northeast crosscut 9091 off east drift 9053, running for mining purposes.

1000 Level—South crosscut 10071, off east drift 10005, prospecting in Mizpah trachyte. West drift 10073,

off south crosscut 10017. Miscellaneous veins, shows a streak of fair ore. West drift 10076, off south crosscut 10022. Favorite vein, 1 1/2 feet of milling ore. Raise 118, off north crosscut 1008, Mizpah Fault vein. 2 feet of low-grade ore. Raise 121, off north crosscut 1005, prospecting for Favorite vein. Raise 122, off saw station, for mining purposes.

1100 Level—North crosscut 11013, off northwest crosscut 1139, prospecting for Favorite vein in trachyte. South crosscut 1159, off southwest crosscut 1147, prospecting in Montana breccia. Northwest crosscut 1102, off west crosscut 1101, prospecting for South vein. North crosscut 11012, off west drift 1137, prospecting in Mizpah trachyte for Favorite vein. East drift 1159, off northeast crosscut 1158. Favorite vein, 1 1/2 feet of low-grade ore. East drift 11007, off south crosscut 1150. Miscellaneous vein, 2 feet of low-grade ore. West drift 11008, off south crosscut 1150. Miscellaneous vein, 1 foot of fair ore. West drift 11010, off northwest crosscut 11002. Miscellaneous vein, 2 feet of low-grade ore. Raise 124, off stope 108, Favorite vein, 1 1/2 feet of low-grade ore, running for air connection. Raise 125, off east drift 11011, hanging-wall branch of Middle vein, 1 1/2 feet of milling ore. Raise 126, off west drift 1184, Mizpah vein, 2 feet of low-grade ore.

1100 Level—West drift 39, off north crosscut 38. Favorite vein, 1 1/2 feet of low-grade ore. Raise 50, off east drift from north crosscut 3, driving for connection with 1100 level. Raise 51, off south crosscut 35, prospecting footwall of Mizpah Fault.

1200 Level—Raise 63, off east drift 1237, mining purposes.

1300 Level—East drift 1332, off south crosscut 1331. Miscellaneous vein, 1 1/2 feet of low-grade ore. East drift 1333, off south crosscut 1331. Miscellaneous vein, streak of fair ore.

USUAL AMOUNT OF TONNAGE FROM THE WEST END SHAFTS

A total tonnage of 1700 was the result of weekly operations at the property of the West End Consolidated Mining company, and tonnage and ore mined from all sections of the big mine were up to the usual high standard. New development work was started from 404 stope in the West End shaft to prospect an undeveloped block.

During the week the mill made its regular semi-monthly shipment of bullion, representing the clean-up for the last half of December. The shipment consisted of 26 bars, weighing 50,400 ounces and valued at \$57,456. This went forward Thursday and finished the work for 1921 so far as the big mill is concerned.

THE WEATHER

Local Observer, United States	
Weather Bureau:	
Temperatures	5 a.m. Noon
Current	19 24
Wet bulb	17 21
Relative humidity	64 71
Temperatures, Extreme	
1922	1921
Maximum yesterday	25 40
Minimum yesterday	16 18

The official report of West End operations for the week ending January 7, as given out by the management of the company this morning, follows:

West End Shaft.

From the West End shaft, drift 413 A has made the usual headway without change to report. An intermediate drift has been started to the west from 404 stope to prospect an undeveloped block. Drift 530 No. 2 was driven ahead 15 feet on 2 feet of vein material. Fair progress was made in the raise on the vein from 542 stope. There is no change to report in 653 intermediate drift.

Ohio Shaft.

From the Ohio shaft, drift 549 is being continued on the Hanging-wall vein following 2 feet of ore of milling grade. Drift 577 No. 1 made 15 feet progress on a full face of low-grade ore. Drift 642 No. 3 made the usual satisfactory progress and the face shows about 5 feet of low-grade quartz. On the 555 level, drift 535 was advanced on 2 feet of milling grade ore without change. On the 800 level the regular progress was made in 868 raise, 870 raise and 862 crosscut. On the 1100 level no change is reported in the 1106 raise. The regular development work was performed in Tonopah "76" ground.

DIRECTOR OF PROHIBITION THREATENED

(By Associated Press)
CHICAGO, Jan. 7.—A police guard met United States Prohibition Commissioner Haynes at the Pennsylvania station when he arrived from Washington today, as a result of threats of death which he had received. Seven letters have been received by the commissioner, according to Deputy Sherman A. Cuneo, threatening death and bomb attack. All letters were postmarked Chicago, and their source is being investigated by postal inspectors.

HAWAIIAN IN CONGRESS HAS PASSED AWAY

(By Associated Press)
HONOLULU, T. H., Jan. 7.—Jonah Kuliha Kianianole, delegate to congress from the territory of Hawaii, and member of the royal family under the Hawaiian monarchy, died this morning. Kianianole had announced this would be his last term in congress and had within the past two weeks firmly refused to consider renomination. He was a Republican. He had been in poor health for some time, and recently was ordered to bed by his physicians. He had planned to sail for San Francisco, where he intended to enter a sanitarium. Prince Kianianole was first elected delegate in 1903 and had represented the territory continuously ever since. He was the hereditary prince of Kaula, and was created a prince of Hawaii by the last of the island kings, Kalakaua. He was born March 26, 1871, at Kapa, island of Kaula. He was frequently known as "Prince Cupid," a nickname of college days. He received part of his education at St. Matthew's college, San Mateo, California.

REPUBLICANS ARE INVITED BY PRESIDENT

(By Associated Press)
WASHINGTON, D. C., Jan. 7.—President Harding invited a number of Republican leaders in congress and several others prominent in the conduct of administration affairs, to a dinner tonight at the White House, at which it is understood the legislative situation and governmental affairs generally will be discussed.

MAY REQUEST A DELEGATION FROM GERMANY

(By Associated Press)
CANNES, France, Jan. 7.—Germany may be asked to send a representative to Cannes for consultation with the allied supreme council on the subject of German reparations, a leading delegate to the council meeting announced today.

Meanwhile it was learned that experts dealing with the subject of German reparations have agreed on a plan for partial remission of cash payments by Germany for a period of years, involving payment of 500,000,000 gold marks in cash and 1,000,000,000 gold marks in kind each year.

WITHDRAWS OBJECTION

Permission has been granted to Musbott & Turner to operate a stage line between Tonopah & Manhattan. The action was taken after Clark James withdrew his objection to the application being granted.

FIVE POWERS SAY NO MORE POISON GAS

(By Associated Press)
WASHINGTON, D. C., Jan. 7.—Poison gas as an instrument of warfare has been outlawed by Great Britain, Japan, France, Italy and the United States who, through representatives at the Washington conference, approved the American proposal to prohibit use of that weapon. After adoption of the anti-gas resolution, the armament committee took up the report of the subcommittee on aircraft limitation, but reached no conclusion. The discussion will be continued Monday.

On the question of aircraft the subcommittee reported that it was deemed impossible to limit the size or use of characteristics of aircraft other than lighter-than-air machines, and that the question of restricting aircraft in war, in its opinion, should be left open for future conference.

STEADILY AT WORK IN GOLD ZONE DIVIDE

Operations at the Gold Zone Divide mine continue along their satisfactory routine, with more than the usual amount of development work consummated since the last report was published.

Raise 310 was advanced 35 feet during the week ending January 6, according to the report of Captain H. R. Bradley, mining engineer in charge of operations, with no particular change to report. During the week another drift, known as 504, was started, and is now being driven on a full face of low-grade ore, which will assist materially in increasing production at this well-managed Divide property. Raise 503 was advanced 12 feet, and 506 intermediate was advanced another 16 feet, with no particular change to report.

Conditions about the property are in very satisfactory shape. The newly installed motor is giving the best of service, and it will not be long before the property comes into its own as one of the steadily producing properties of the district.

CHARGES OF COERCION ARE INDICATED

(By Associated Press)
WASHINGTON, D. C., Jan. 7.—Charges that threats have been made by certain interests to coerce senators to vote against the seating of Senator Newberry of Michigan were made today by Senator Townsend of that state, in the course of an extended defense of his colleague in the senate.

EXPRESS OFFICIALS HERE

Tonopah was visited today by a number of officials of the American Railway Express company, those in the party being E. E. McMichael, superintendent, with headquarters at Sacramento, who was one of the pioneer agents of the Tonopah district; W. D. McIntosh, superintendent of the bureau of organization, with headquarters in Chicago; William McMahon, route agent, with headquarters at Reno, and F. E. Crandall, route agent of the Sacramento division, with headquarters at that place.

All the gentlemen are enthusiastic over conditions in Tonopah, stating that this point is the second largest shipper of express in the state of Nevada, and the largest shipper of bullion in the entire northern California-Nevada district, which includes northern California, Nevada and western Utah.

MEXICO TO BE INTERROGATED OVER SEIZURE

(By Associated Press)
WASHINGTON, D. C., Jan. 7.—The state department has instructed the American embassy at Mexico City to request of the Mexican government an explanation of the seizure by the municipality of Saltillo of property of the foreign mission board of the Southern Baptist convention, a seizure which protest has been made to the department by Senator Harris of Georgia. The seizure included property operated by the mission board as a girls' school.

DEVELOPMENT IS GREATER AT DIVIDE MINE

With the usual amount of ore being shipped each week from the property of the Tonopah Divide Mining company, and development for the past week increasing materially over the figures of the seven-day period preceding this report, the report of conditions about the big Divide producer is received with satisfaction by those who are interested in that section of the mineral producing area contiguous to Tonopah, and in the Tonopah Divide mine in particular.

A total of 1168 feet of development work was consummated in the seven-day period ending January 4, 1922, the deep shaft having been sunk an additional 28.5 feet since the last report. All indications point to a speedy and successful completion of the shaft to water level at an early date.

The official report of company operations for the seven-day period ending January 4, as furnished by the management, follows:

West drift 230 advanced 22 feet. Drift 1901 advanced 24.3 feet. Intermediate south crosscut 309 advanced 4 feet. Drift raise 304 advanced 12.5 feet. Raise 309 advanced 25.5 feet. Main shaft lowered 28.5 feet.

PROPOSAL OF FORD THOUGHT BEST BY FAR

(By Associated Press)
WASHINGTON, D. C., Jan. 7.—Secretary Weeks, after a conference with W. C. Tinkler of San Francisco, whose construction company has submitted an offer for the Muscle Shoals nitrate and power projects, stated that the bid by Henry Ford was the "only comprehensive proposition before him which included both a construction project and the manufacture of fertilizers."

IMPRISONMENT OF MRS. PEETE TO CONTINUE

(By Associated Press)
SAN FRANCISCO, Cal., Jan. 7.—An application for a writ of habeas corpus to set aside the convicting and judgment of life imprisonment against Mrs. Louise Peete of Los Angeles for the murder of Jacob Denton, a mining operator, was denied by United States District Judge Dooling today.

W. L. HACK, division superintendent of the Salt Lake division of the Southern Pacific railroad, with headquarters in Ogden, was an arrival in Tonopah this morning in his private car, "Salt Lake."

PEACE COMES AFTER PROLONGED DEBATE LATE IN EVENING

DUBLIN, Jan. 7.—Dail Eireann tonight voted for ratification of the Anglo-Irish treaty creating an Irish free state. The vote was 64 to 57.

After the vote De Valera announced his resignation as president of the Irish republic.

(By Associated Press)
DUBLIN, Jan. 7.—At the beginning of today's session of Dail Eireann, Speaker John MacNeill read a motion prepared by himself calling upon Dail Eireann to affirm Ireland as a sovereign state, deriving its authority from the will of the people. The motion would provide that all Ireland's international relations must be governed by this status. It is expected that the motion will be put through if the treaty is ratified.

Following the reading of the motion Harry Boland arose to speak against the treaty. Just back from

the United States, he asked for a vote of thanks for the "Magnificent support America has given us." No one knew better than Michael Collins, declared Boland that there were 5000 men in America eager to fight for Ireland, and many such men had come back to Ireland and fought valiantly.

Boland said he would have to admit sentiment in America favored the treaty but that many subscribers to the Irish loan would regard adoption of the treaty as a betrayal of their sympathy and support. He declared acceptance of the treaty would be suicide for Ireland. He was enthusiastically applauded when he took his seat.

Dail appeared to be within a few hours of a vote on the treaty when it concluded the morning session. The debate was to proceed during the afternoon, lasting until 6 or 7 o'clock, before a vote could be reached.

DIAMOND DRILLING GOING ON AT THE TONOPAH EXTENSION

An increase in development work carried out at the property of the Tonopah Extension Mining company over the previous week is one of the outstanding features in this week's report of company operations. A good sized shipment of bullion was made from the mill yesterday, being the result of the clean-up for the last half of December.

Twenty-three bars were forwarded, weighing 42,450 ounces and being valued at approximately \$48,000.

On the 1549 level of the McKane shaft the diamond drills are again at work. Prospecting for water level at this point is the objective of the drilling rather than the location of new orebodies.

A total of 291 feet of development work was accomplished at the well-known property during the week, showing an improvement over the seven-day period just preceding.

The official report of company operations for the week ending January 6, as given out by the management, follows:

McKane Shaft.

1200 Level—1203 crosscut advanced 26 feet in Extension breccia.

1549 Level—Work on pump station continued. No. 1 diamond drill hole advanced 80 feet.

Victor Shaft.

1600 Intermediate Level—No. 1 east drift advanced 16 feet on low-grade quartz. Stopping is in progress on the Merger vein.

1680 Level—1614 crosscut advanced 9 feet in Extension breccia and was stopped. 1618 east drift advanced a few rounds on low-grade quartz. Stopping is in progress on the Murray, Merger and Benning veins.

1760 Level—1702 west drift, Anchor vein, was resumed on 2 feet of ore. 1719 east drift advanced 18 feet on low-grade ore. 1719 raise, Murray vein, middle branch, advanced 20 feet on 3 feet of low-grade ore. Stopping is in progress on the Murray and Merger veins.

1880 Level—1890 intermediate crosscut advanced 8 feet and cut the Merger vein, showing low values. A west drift has been started on this quartz. 1804 intermediate east drift advanced 25 feet on 6 feet of ore. 1802 crosscut advanced 21 feet and cut the hanging-wall branch of the Murray vein, showing 8 feet of ore. 1806 west drift advanced 19 feet on this ore. 1803 west drift, Murray

vein, footwall branch, advanced 22 feet on 4 feet of ore. 1803 east drift, Murray vein, footwall branch, advanced 22 feet on low-grade quartz. 1810 crosscut advanced 14 feet in hanging-wall of Merger vein. Stopping is in progress on the Anchor vein.

MAN WANTED IN EAST ARRESTED ON COAST

(By Associated Press)
LOS ANGELES, Cal., Jan. 7.—Elmer M. Dowdy, declared by local police to be wanted in Philadelphia in connection with the theft on November 19 of \$35,000 in jewelry from Mrs. Sana Bent, wife of Steadman Bent, vice-president of the Pennsylvania Steel company, was arrested here last night.

FRANCE MAY YET GET BRITISH HELP

(By Associated Press)
CANNES, France, Jan. 7.—Great Britain may enter into an agreement to guarantee the security of France in the event of an unprovoked attack by Germany, it was reliably reported in British circles at the allied supreme council meeting here today.
